Eat Smart, *Live Well*

Evidence-based nutrition insights to help you build lasting healthy

habits — no fad diets, no overwhelm.

🥦

HABIT 01

Always Include Fruits & Vegetables

Fill half your plate with vegetables or fruit at every meal. They're packed with fibre, vitamins, and antioxidants that support digestion, heart health, and a healthy weight.

"Add berries to breakfast · Side salad at lunch · Roasted veg at

🍽️

HABIT 02 & 03

Eat Produce First & Eat Mindfully

Starting your meal with vegetables helps fibre reach your gut early, promoting fullness and steadying blood sugar. Pair this with distraction-free eating to recognise your body's natural hunger signals.

💧

HABIT 04 & 05

Eat Slowly & Drink Water First

It takes about 20 minutes for your brain to register fullness — eating slowly gives your body time to catch up. Drinking water before meals also helps distinguish true hunger from thirst, supporting digestion and a

dinner"

"Eat veg before rice · Put the phone down · Sit and savour each bite"

healthy weight.

"Chew thoroughly · Pause mid-meal · Water 10–15 mins before eating"

"Sustainable nutrition is not about perfection — it's about building healthy habits that work for your life."
